

Errata for the November, 2006 Beta Version of the USGBC Colorado Chapter LEED Professional Accreditation Study Guide

January, 2007

Item 1

Beta version page 49, Practice Exam question #1 should have asked for **four**, and not three, correct answers. The correct answers include **B, C, E, and F** (the last of which is not indicated in the Beta version answer key).

Item 2

Beta version page 59, Practice Exam question #41 should have asked for **four**, not three, correct answers. Also, one too many correct answers were included in the available options. Correct answers remain **C, D, F, and G** as indicated in the Beta version answer key. The revised question reads:

41. For which four of the following are LEED credit achievement and/or the associated credit compliance options most significantly influenced by site selection prior to the design phases of the project? (Choose four.)
- A. SS Credit 7.1, Heat Island Effect: Non-Roof
 - B. SS Credit 4.2, Alternative Transportation: Bicycle Storage and Changing Rooms
 - C. SS Credit 5.1, Site Development: Protect or Restore Habitat
 - D. SS Credit 4.1, Alternative Transportation: Public Transportation Access
 - E. SS Credit 4.4, Alternative Transportation: Low-Emitting and Fuel-Efficient Vehicles
 - F. SS Credit 8, Light Pollution Reduction
 - G. SS Credit 3, Brownfield Redevelopment

Item 3

Beta version page 65, Practice Exam question #70 should have asked for **two**, and not three, correct answers. The correct answers remain **B and C**, as indicated in the Beta version answer key.

Item 4

Beta version page 68, Answer Key for Practice Exam question #35 should indicate **B, E, and F** as correct answers (*not* A, B, and E).
